

KEANAN WILSON

WEB & E-COMMERCE PROJECT MANAGER

Project Manager with 5 years of experience leading web and e-commerce initiatives for prominent brands—including Bowers & Wilkins, Denon Audio, Union Pacific, and Angostura Bitters—within consumer-tech, agency, and start-up settings. Solid experience scaling businesses, building and managing teams, managing scope, budget, and schedules, and moving projects smoothly from discovery through launch and ongoing optimization.

PROJECT-MANAGEMENT TOOLKIT

Adobe Workfront · ClickUp · Jira · Trello · Figma · Confluence · SharePoint · OneDrive · Slack · Microsoft Teams · Excel · Google Workspace · Wistia

CORE SKILLS

Agile / Scrum · Kanban · Scope, Budget & Timeline Management · UX/UI Wireframing in Figma · CRO Enhancement · Stakeholder & Client Management · Contract & SOW Drafting · Web QA / UAT · Asset Management

PROFESSIONAL EXPERIENCE

Revive Global Ventures – Remote

Chief Technology Officer – Freelance

May 2026 – Present

- Lead technology strategy, digital platform development, and AI systems across Revive Global Ventures' client and venture initiatives.
- Translate business, brand, and growth strategies into practical technology roadmaps, budgets, and delivery plans.
- Architect and oversee websites, e-commerce systems, protected digital platforms, and AI-enabled workflows.
- Define technology stacks, integrations, infrastructure, security, and scalable platform architecture.
- Manage projects from discovery and scoping through development, QA, launch, and ongoing optimization.
- Coordinate designers, developers, strategists, vendors, and client stakeholders across multidisciplinary engagements.
- Apply AI-assisted development and automation to improve delivery speed, operational efficiency, and decision-making.
- Support new venture evaluation, digital product strategy, and technical due diligence.

Aesthetix Digital Agency – Remote

Operations Manager – Part-time

Aug 2025 – Oct 2025

- Managed agency operations and cross-functional digital delivery for an Australian digital marketing agency focused on skincare and aesthetic medicine clients.
- Rebuilt the agency's entire business operations environment from Monday.com to ClickUp in the middle of active client delivery.
- Built and migrated freelancer-facing boards, client boards, internal OPS boards, social media flow boards, and marketing boards while keeping active projects moving.
- Coordinated developers, copywriters, freelancers, clients, design assets, product data, approvals, revisions, and project dependencies.
- The Skin Element: Managed a completed, unreleased Shopify ecommerce rebuild as Ecommerce Manager, Product Manager, and Web Project Lead. Owned storefront architecture, collection structure, homepage flow, CRO-focused content placement, merchandising, and brand asset sourcing.

- Converted fragmented retailer and supplier spreadsheets into a structured Shopify product catalog, organizing product categories, collections, SKUs, metadata, SEO fields, tags, brand information, and launch-critical backend data.
- Managed a copywriter responsible for product titles and descriptions and trained them to work directly inside the Shopify backend.
- Jennifer Carly Aesthetic Medicine: Managed the WordPress and WooCommerce build with a developer, tracking the full project in Monday.com and taking ownership of the treatments mega menu, homepage structure, treatment category pages, individual treatment pages, ecommerce content, client assets, and backend implementation.
- Took over a disorganized project, tracked down missing design, copy, and photography assets directly from the client, and helped deliver a functional site ready for launch.

Sound United (acquired by HARMAN Int.) – Remote

Web Project Manager – Creative Services | Bowers & Wilkins / Denon / Polk Audio

Oct 2021 – Nov 2022

- Directed the full redesign of the Bowers & Wilkins global e-commerce site. Tracked all deliverables in Master Excel Sheet & Adobe Workfront. Worked 1-on-1 with in house designer via Figma. Met weekly with B&W Brand Team, Creative Services Director, Copywriters and Designer to manage project timeline and approve/implement all Figma designs and copy. Delivered all approved Figma design assets to Development Team for implementation and QA/UAT. Live site launched on schedule and under budget.

 <https://www.bowerswilkins.com/en-us/>.

- Managed CRO Campaign for entire Polk Audio Ecommerce Site. Tracked ~100 Jira tickets, partnering with DTC lead and external CRO agency for A/B Testing. Collaborated 1-on-1 with in-house designer via Figma to implement approved CRO findings into design modules. Handed off finished design assets to dev team for QA/UAT and live deployment. Updated Figma design modules were backlogged to Confluence repository. This initiative resulted in a 23% lift in checkout conversion rate and 15% decrease in bounce rate within 60 days post-launch.

 <https://www.polkaudio.com/en-us/>.

- Optimized Bowers & Wilkins SEO product strategy for UK regional site by championing “earbuds” vs “in-ear headphones” terminology—backed by keyword data showing ~16K vs ~210 monthly searches (76× difference), aligning product naming with search demand to improve campaign ROI and relevance:

Pi8 Wireless Earbuds

- Led NPI launches for Denon and Polk Home Audio products, such as the [Polk Sign S4 Sound Bar](#) and the [Denon DHT S217 Sound Bar](#): Sprint Cycle: Receive product brief from DTC Team -> Collaborate with Designer in Figma to implement copy/image/iconography/documentation assets and customize all modules on PDP -> Brand approval & final revisions -> Delivery to Dev Team.
- Managed Copy for Bowers & Wilkins Ecommerce sites. Worked directly with Global leads in APAC and EU for global copy translation. Sprint Cycle: Deliver US+UK copy to APAC+EU Leads -> receive translated copy back -> coordinate with External SEO team for keyword optimization -> B&W Brand Team approval -> deliver approved copy to Dev team. All deliverables were tracked via Excel docs stored in Sharepoint.
- Collaborated with renowned Bowers & Wilkins brand partners like [BMW](#), [McLaren](#), [Volvo](#) and [Lenovo](#) to launch brand partnership web pages.
- Managed video assets for B&W, Denon and Polk audio brand via Wistia.

H+K Strategies – Remote

Web Project Manager & Digital Producer | Innovation + Creative Team

Mar 2022 – Jul 2022

- Led the design and launch of a public-facing remediation project website for Union Pacific. Collaborated directly with in-house Developer, Designer and Account Manager. Met bi-weekly with Union Pacific Stakeholders for all site revisions. Tracked Budget and Timeline via ClickUp, and all assets via OneDrive:

 <https://www.houstonwoodpreservingworks.com/>

- Directed UX wireframes and content production for Angostura Bitters’ “Bitters 101” digital experience, guiding users through a four-product interactive carousel, cocktail recipe filters, and embedded how-to video content. Collaborated with in-house designers and Angostura stakeholders to source tasting notes, cocktail pairings, stock imagery, and

brand-reviewed copy. Delivered a polished, responsive experience that significantly modernized the brand's digital presence and enhanced user navigation and content engagement across 30+ curated recipes.

🔗 angosturabitters.com/bitters-101

- Managed production and cross-functional rollout of the Ecolab Science Certified microsite, highlighting Ecolab's public health and safety initiatives across hospitality, retail, and foodservice sectors. Partnered directly with in-house developer, designer, account manager, and Ecolab stakeholders to deliver a clean, accessible UX that clearly communicated Ecolab's commitment to infection prevention and food safety at scale.

🔗 <https://www.ecolab.com/offerings/science-certified-program>.

- Redesigned site architecture and updated pipeline page for Ichnos Sciences, collaborating with stakeholders to restructure web content and integrate quarterly pipeline updates across oncology and autoimmune portfolios. Led UX recommendations, content mapping, and QA for new PDF-driven clinical data sections—enhancing site clarity and effectively communicating drug candidate progress to investors, researchers, and potential partners. 🔗 iginnovate.com/pipeline

- Used ClickUp to manage digital projects end-to-end, from wireframing and content sourcing to stakeholder reviews and final delivery.

- Drafted detailed SOWs for client projects in close collaboration with designers, developers, and account managers—translating high-level contract terms into clear scopes, timelines, and estimated budgets tailored to each engagement.

- Regularly updated shared budget estimators in collaboration with fellow PMs and account managers to ensure accurate scoping, resource planning, and financial transparency across multiple client engagements.

Eagle Rocket LLC – Los Angeles, CA

Co-Founder / Web Project Manager / Operations Lead

Oct 2019 – Nov 2020

- Co-founded and grew a boutique e-commerce studio focused on Shopify and WooCommerce builds.
- Guided projects through discovery, contract drafting, sprint planning, resource onboarding, QA/UAT, and deployment.
- Led sales and discovery calls, defining scope, budget, and timelines before handing projects off to delivery teams.
- Managed distributed developers and designers, ensuring milestones were met and quality standards maintained.
- Implemented billing and forecasting processes, streamlined accounting, and upheld project-tracking systems in ClickUp.
- Oversaw site migrations, hosting/server transfers, and post-launch maintenance agreements.

Upwork – Remote

Freelance Web Project Manager

Nov 2020 – Present

- Leverages an Upwork profile to generate leads, build client relationships, and secure web projects.
- Defines scope, budget, and timelines with each client and conducts regular progress meetings.
- Delegates design and development tasks to trusted international teams while maintaining clear communication and quality control.
- Employs ClickUp to run Agile sprints, track issues, and keep stakeholders informed.
- Maintains detailed records of income, labor, and overhead, and keeps a network of e-commerce professionals available for work.

LafaYeti LLC – Lafayette, CO

Founder

Jan 2024 – Present

- Provides freelance web-project-management services through [Upwork.com](https://www.upwork.com)
- Contracted by the University of Colorado Boulder to provide photography for the 2024 Lab Venture Challenge.
- Offers freelance photography and headshot services, managing the full shoot-to-delivery process including client direction, editing, and final asset delivery
- Runs a parallel carpentry and home-remodeling side business
